

BEWARE OF CYBER FRAUDS AND CRIMES

Dear Investor,

Greetings from SMIFS Limited and thank you for being our valued client.

It is our continuous effort to make your association with us convenient and hassle free by ensuring timely updates.

Keeping in line with this, we would like to inform you that to mitigate against cyber security threats and to reduce the attack surface for malicious cyber actors, you should be knowing the importance of Cyber security.

Some key precautionary measures you should take note to prevent yourself from Cyber Frauds and Crimes:

1. Exercise Caution and Diligence while opening emails and attachments from unknown senders. It may contain viruses, trojans, malwares or phishing attempts.
2. Use strong passwords or passphrases that do not contain personal information.
3. Beware of malicious mails. Always delete them.
4. Beware of online requests from unknown people. Social Engineers are always on the lookout for easy preys.
5. Clicking on links from untrustworthy sources could cause you harm. Stay away from Unsolicited Emails.
6. Offers could be Tempting! Don't fall for the TRAP.

These tips are simple, easy and relatively inexpensive saving you from Cyber Criminals at any place and time.

Remember. It's always better to be safe than sorry.

Assuring you best of our services.
