

The Nifty ended 1.78% up at 12,120.30. It opened gap-up and continued moving higher towards finishing off on a stronger note above 11,950. Breaking out 11,950 with a gap-up implies it may now challenge higher resistances placed around 12,150 and 12,200 levels. And, needless to say, 11,950 may now act as the base support.

On the Nifty hourly chart; short-term downward trend line breakout, bullish continuation pattern, is seen. Hence, uptrend is likely to continue. Higher resistances are placed around 12,150 and 12,200.

Nifty patterns on multiple time frames suggest; ending the session above 11,950 is positive development. Probable trading range is likely to be 11,950-12,200.

Nifty Intraday Chart

Market in Retrospect

Indian equity markets ended higher for the fourth straight session, spurred by positive global sentiment, even as the verdict of the U.S. Presidential elections hangs in the balance.

The NIFTY index ended 1.8% higher at 12,120. The broader markets represented by the NIFTY 500 Index ended 1.75% higher, ending at 9935. NIFTY Metal was the top gainer, gaining by 4.40%, followed by NIFTY Media which ended by 4.03% higher. NIFTY Realty was the top loser, losing by 0.51%

Indusind Bank was the top gainer, gaining by 5.36%, followed by Sun Pharma and Divi's Laboratories which gained by 1.56% & 0.40% respectively. UPL was the top loser, losing by 4.25%, followed by Titan and Adani Ports, which fell by 3.19% & 3.10% respectively.

The Advance: Decline ratio stood at 1340:524

Lupin Ltd

Lupin Ltd reported 1.21% fall in the Sep-20 quarter top line sales revenues at INR3,835cr. Since the company operates in the pharmaceutical segment, the impact of the COVID related lockdown was minimal on the operations of the company. For the Sep-20 quarter, the operating profits were down 5.04% to INR368cr. The pre-tax profit in Sep-19 was largely driven by other income in Sep-19 and hence the impact on the operating profit was minimal. This also resulted in the operating margin contracting from 12.96% to 9.61% in the Sep-20 quarter. Net profits for the Sep-20 quarter turned around from a net loss of INR182cr in Sep-19 quarter to a profit of INR214cr in the Sep-20 quarter, largely on the back of extraordinary charges in the Sep-19 quarter. This led to the net margins turning around into the positive territory at 5.57% in Sep-20 quarter. The net loss in the previous fiscal quarter Sep-19 was largely caused by INR546cr of extraordinary losses booked in that quarter. That resulted in the loss in Sep-19 quarter. This was the net amount of loss from divestments in India and abroad. The net cash flow from operations for the Sep-20 half actually fell by 75% on a yoy basis.

Pidilite Industries

Net Sales at INR1,880.33 crore in September 2020 up 4.08% from INR1,806.58 crore in September 2019. Quarterly Net Profit at INR356.42 crore in September 2020 up 9.93% from INR324.22 crore in September 2019. EBITDA stands at INR534.33 crore in September 2020 up 26.02% from INR424.02 crore in September 2019. Pidilite Ind EPS has increased to INR7.01 in September 2020 from INR6.38 in September 2019.

Praj Industries

Net profit of Praj Industries declined 29.39% to INR11.39 crore in the quarter ended September 2020 as against INR16.13 crore during the previous quarter ended September 2019. Sales declined 11.53% to INR260.24 crore in the quarter ended September 2020 as against INR294.14 crore during the previous quarter ended September 2019.

ABB India

ABB India reported 7.64% reduction in the Sep-20 quarter top line sales revenues at INR1612.17cr. Operating profits for the quarter was down 4% at INR96.66cr. This resulted in the operating margin moving from 5.77% to 6.00%; gains due to lower sales base. Net profits for the Sep-20 quarter as measured by PAT were 8.5% up at INR85.49cr. This led to the net margins in the second quarter higher by nearly 120 bps at 5.30% on the back of a sharply lower tax burden on the company in the Sep-20 quarter compared to Sep-19.

Aditya Birla Capital

Aditya Birla Capital reported 16.11% increase in the Sep-20 quarter top line sales revenues at INR4,589.12cr. The impact in the June quarter was fairly limited for the company. Its operating margins were virtually flat at INR295.63cr in the Sep-20 quarter. Net profits for the Sep-20 quarter as measured by PAT were up 2.35% at INR264.34cr. This resulted in the net margins in the second tapering slightly from 6.47% to 5.76%. The operating margins dipped by 106 bps at 6.44% in the Sep-20 quarter.

Bajaj Electricals

Bajaj Electricals was back in black in the September quarter (Q2) and posted consolidated net profit of INR53.11 crore. The company had a net loss of INR32.54 crore in the year-ago period. The total revenue from operations grew 11.1 percent YoY to INR1,217.71 crore in Q2FY21. For the quarter, Consumer Products (CP) segment earned total revenue of INR792 crore, which is a YoY growth of 12.9 percent. EPC segment has achieved a total revenue of INR425 crore, showing an 8 percent YoY growth. Here, the company reported a positive EBIT of INR7 crore in Q2 as against negative EBIT of INR18 crore in the same period last year. For the half year ended September 30, the company generated positive cashflow from operations of INR467 crore as against INR294 crore in the corresponding half year of the previous year. The debt has reduced from INR962 crore at the end of FY20 to INR559 crore at the end of Q2FY21. The order book as on October 2020 stands at INR1,474 crore. This comprises of INR482 crore for transmission line towers, INR602 crore for power distribution, and INR390 crore for illumination projects.

Jamna Auto Industries

Net profit of Jamna Auto Industries rose 27.47% to INR8.12 crore in the quarter ended September 2020 as against INR6.37 crore during the previous quarter ended September 2019. Sales declined 23.02% to INR186.57 crore in the quarter ended September 2020 as against INR242.35 crore during the previous quarter ended September 2019.

Muthoot Capital

Muthoot Capital Services Ltd has posted a net profit of INR15.7 crore in Q2 of FY21 against a 14 crore in the same quarter last year. The total income for the quarter touched INR143.7 crore. With economic growth starting to normalise, the company disbursed two-wheeler loans amounting to INR106.1 crore only and had a total disbursement of INR116.1 crore during the quarter. Total AUM reached INR2,269 crore at the end of the quarter, including the assigned portfolio of INR34 crore. For the same quarter last year, the company had a total disbursement of INR487.8 crore, and AUM at the end of same quarter last year was at INR2,760 crore. During the same quarter last year, the company reported a total revenue of INR145 crore.

PVR Ltd

- Since the reopening of cinemas beginning October 15th only old content was being exhibited and that didn't pull crowds as expected and occupancy levels were down to 4-5%. Durga Puja festival in Bengal was a good way to test people's reaction to new content as 6 new Bengali movies were released. **Out of these 6, 2 were mid budget movies and these two movies did very well for the 5-6 days of the Puja period, attracting 50% or the maximum allowable occupancy and the average ticket prices for these movies were comparable to pre Covid ticket prices. So, people are interested in watching new content in theatres.**
- The relaxation of occupancy to more than 50% is being keenly anticipated by the multiplex industry and this may happen in Q4FY21, however, most producers including South Indian producers are comfortable with 50% occupancy and plan to release their completed movies in the near future.
- **Private screening has turned out to be a wonderful addition in PVR's portfolio in these trying times.** 340 private screenings have happened so far from the date of reopening of cinemas at a pan India level. **PVR intends to push this product hard as this is not dependent on content but more on the PVR experience.** Marriage anniversaries and Birthdays were celebrated in these private screenings and PVR charged the consumer at 30% occupancy rate rather than the maximum allowable 50% occupancy rate.
- **PVR has been successful in having fruitful discussions with 60% of developers with respect to rent waiver during the lockdown period and rent reductions during the period post lockdown.** Most landlords have agreed to a revenue sharing arrangement post the reopening of cinemas or a reduction in minimum guaranteed rent. **A reduction of around 50% of pre Covid rent is expected for the remaining part of this financial year.**
- **There have been discussions with producers and distributors with regard to their share of income from sale of movie tickets, while minor adjustments will happen for the remaining part of this financial year, there would be no structural change in the medium to long term.**
- **There should not be any fear with respect to creation of new content as most producers have started shooting while maintaining protocols. There has been keen interest in most actors across India to shoot movies. In fact, some actors who were interested in shooting 1-2 movies in a year are shooting for 3-4 movies.**
- The management of PVR reiterated that there is no threat from OTT platforms. The tried and tested model of releasing the content first in theatres followed by OTT platforms should hold true in the medium to long term and aberrations which have been witnessed in the recent past should fade away.
- **Maharashtra and Telangana are big markets for the theatre owners including PVR with approximately 20% of revenues of PVR in pre Covid times originating in Maharashtra. PVR expects Maharashtra and Telangana to reopen in November most likely before Diwali.**

- PVR chose not to renew leases with respect to 3 properties having 14 screens as these were at their end of their life cycle and better options in terms of new shopping malls are available for PVR. Besides these screens were making EBITDA losses. In FY20, 4-5% of the total screens of PVR were making EBITDA losses.
- **PVR was reluctant to guide on cash burn for the next six months as well as growth in terms of screens in next financial year as it is taking a QoQ view. The Management agreed that there could be some compelling M&A opportunities, however, PVR is not interested in them currently and may have a look at them once business bounces back.**
- **The current ATP stands at INR150. While occupancies are low at 4-5%, SPH/ATP ratio is healthier than pre Covid times. Number of shows vary between 1 and 3 across auditoriums. The Management expects ATP to revert back to pre Covid levels after 4-5 weeks of reopening of cinemas in Mumbai with new content and big releases hitting the screens.**
- Advertisement revenues are nil as of now.
- Insignificant concessions of CAM are expected post the reopening of cinemas.
- **PVR is currently working with 6,500 employees including cleaning and housekeeping staff. For the rest of the financial year PVR expects to work with around 60% of pre Covid employee numbers of c. 14,000**
- **PVR's net debt as on 30th September stood at INR9019.4 mln. Liquidity including additional credit lines stood at INR5500 mln out of which cash and cash equivalents amount to INR3700 mln. While the liquidity is good enough to tide over these stressful times, should the situation worsen, PVR may go for more capital raise.**

Jyothy Labs Ltd.

- Fabric care sales were equally divided between post wash and main wash sales. **Ujala whitener sales have broadly reached pre Covid levels. Crisp and Shine will take 1 to 2 quarters more time to get back to pre Covid levels. Main wash category saw a decline in sales because of poor offtake in modern trade and CSD channels. These channels should come back to normal levels in the forthcoming quarters.**
- **There should be steady growth in the next 3-6 months.** The growth rates for Dishwash and Household Insecticides (HI) seen in Q2FY21 are sustainable. Fabric care is witnessing a month on month improvement and has the potential to get back to high single digit/low double digit growth. **Dishwash category has an enormous opportunity to penetrate more in rural areas as a majority of people in rural areas still use ash for dishwashing.**
- **The guidance of 15-16% EBITDA margin for the full year is being maintained.** Any savings leading to potentially high EBITDA margins will be invested in advertisement spends with an aim to grow the topline. In fact, increased media spends are being endeavoured for the remaining quarters of FY21.
- Working capital levels should go up to 20-21 days in the coming quarters.

- The current mix between coils and liquid sales in the HI category is 65:35. **Jyothy aims to increase the share of liquids as liquids have a Gross margin higher than the Company average while coils have an Gross margin lower than the Company average.** This is the reason why the segmental EBIT margins for the HI category is negative in Q2FY21 like many past quarters. Excluding advertisement costs the EBIT margins were positive. The Company believes that this segment has potential to turn around in the future and generate positive EBIT after considering all relevant costs.
- Sales of spurious agarbattis have also dropped in Q2FY21 thanks to proactive steps taken by Home Insect Control Association (HICA).
- **40% of Consolidated Sales came from Rural India and the balance from Urban India. Jyothy today covers all villages with a population of more than 10,000 people.**
- **Ecommerce contributed to 3% of sales in Q2FY21, Modern Trade – 7 to 8%, CSD – 10% and General Trade – 80%.**
- **Lower unit packs contributed to 25-30% of Q2FY21 sales.**
- Jyothy believes in the rationale of selective launch starting with Kerala for any new product, and the launch of Exo Bioh Fresh was no exception. This allows Jyothy to test the market response for a product before preparing for a nationwide launch. **Exo Bioh Fresh has huge potential irrespective of Covid as people get more conscious about hygiene.**
- Exo Gel was launched as a bridge between Exo and Pril as some people are reluctant to spend on liquid dishwashers given their price as well as potential for wastage. One unit pack of Exo Gel has the ability to last more than a month given its concentrate nature. Besides, it is the only anti-bacterial option available in Gel form.
- As of now, sales of hand wash and face wash are too low to be reported separately. However, they are growing fast.
- Tax rate for FY21 and FY22 should be between 17.5 and 18%.

High Food Prices May Soften With Good Kharif Harvest, Says Finance Ministry

- Food prices may soften in the coming months amid prospects of a good kharif season harvest and reduced supply-side disruptions, according to the Ministry of Finance.
- A favourable monsoon may lead to good harvest, and moderate the impact on food inflation, the ministry said in its monthly economic report, adding Covid-19-related supply disruptions, such as labour shortages and high transportation costs, “could continue to impose cost-push pressures”. The report said these risks are being mitigated by progressive easing of lockdowns and removal of restrictions on movements

Samsung India reports record 32% growth in October for electronics business

Indian consumers are buying premium consumer electronic products, including for entry-level categories and in smaller towns, which has helped Korean giant Samsung to report record sales during October. Samsung India has grown by 32% in October as compared to same period last year, while the sales of premium products have grown by 50%. This is certainly the best ever growth, since typically growth during festive period is 15-20%. Sales of premium products have grown across categories. Consumers are buying higher capacity products and upgrading technology too. In August and September, Samsung had grown by 20% while for premium products the surge was 30%. Even during Durga Puja in East, Samsung grew by 34% while for premium products it is 62%.

Flipkart Group to invest in USPL to enhance fashion portfolio

Flipkart Group announced a strategic investment in USPL a premium youth-focused fashion firm that operates brands like Wrogn in a bid to strengthen its fashion portfolio. While the financial details of the investment were not disclosed. This is a Series F funding for USPL from the Flipkart Group along with participation from existing investor Accel Partners. This investment will significantly step-up the online strategy of USPL by strengthening the existing long-standing engagement between USPL and Flipkart Group. Universal Sportsbiz Pvt Ltd (USPL) had announced raising USD 13.5 million (around INR100 crore) from investors, valuing the company at around INR1,200 crore. The series E round saw participation from investors including Accel Partners and Alteria Capital Advisors. The latest development comes close on the heels of Walmart-owned Flipkart Group's INR1500 crore investment in Aditya Birla Fashion and Retail Ltd (ABFRL) that was announced on October 23. With this infusion, Flipkart Group will own 7.8 per cent equity stake in ABFRL on a fully diluted basis.

BASF puts \$4 billion India chemical complex on hold due to COVID-19

BASF NSE 9.92 % said on Thursday it had put a project to build a petrochemicals complex in India worth up to \$4 billion on hold due to the economic uncertainty caused by the COVID-19 pandemic. BASF signed a memorandum of understanding with Abu Dhabi National Oil Company (ADNOC), Adani Group and Borealis AG in October 2019 to evaluate a collaboration to build the chemical site in Mundra. The global economic uncertainties caused by the pandemic have led the partners to review the timing for undertaking this investment. Despite all attempts to optimize the scope and the configuration, the project has been put on hold.

Saudi Public Investment Fund to invest INR9,555 crore in Reliance Retail

Reliance Industries Ltd's retail arm raised INR9,555 crore from Public Investment Fund (PIF) of Saudi Arabia, taking total fundraise in the last two months to INR47,265 crore. PIF will take a 2.04 per cent stake in Reliance Retail Ventures Ltd (RRVL). The investment values RRVL, the retail arm of Reliance Industries Ltd, at a pre-money equity value of INR4.587 trillion. This is second investment by the Saudi Arabian sovereign wealth fund in an Ambani firm. It had previously picked up 2.32 per cent stake in Jio Platforms, the digital and telecom arm of Reliance, for INR11,367 crore.
