Airtel sells some 800 MHz spectrum in 3 circles to Jio for INR1,037.6 crore

Bharti Airtel has signed a definitive pact with Reliance Jio Infocomm to sell the 'Right to Use' of the Sunil Mittal-led telco's 800 MHz spectrum in Andhra Pradesh (3.75 MHz), Delhi (1.25 MHz) and Mumbai (2.50 MHz) for INR1,037.6 crore. Through this agreement, Airtel will receive a consideration of INR1037.6 crores from Jio for the proposed transfer. In addition, Jio will assume future liabilities of INR459 crores relating to the spectrum. The sale of the 800 MHz blocks in these three circles has enabled us to unlock value from spectrum that was unutilised. This is aligned to our overall network strategy. Jio said with this trading of right to use spectrum, it will have 2X15MHz of spectrum in the 800MHz band in Mumbai circle and 2X10MHz of spectrum in the 800MHz band in Andhra Pradesh and Delhi circles, thereby further consolidating its spectrum footprint in these circles.

Indian market sees INR2.74 lakh cr worth FPI inflows during FY21

The Finance Ministry said India witnessed strong Foreign Portfolio Investment (FPI) inflows into the equity markets to the tune of INR2,74,034 crore during 2020-21. This reflects steadfast confidence of foreign investors in the fundamentals of the Indian economy. The robust FPI flows came on the back of faster than expected economic recovery supported by multiple tranches of innovatively designed stimulus packages. The government and regulators had also undertaken major policy initiatives directed at improving ease of access and investment climate for FPIs in the recent past. These include simplification and rationalisation of the FPI regulatory regime, operationalisation of the online Common Application Form (CAF) for the purpose of registration with SEBI. April and September were the two months that witnessed outflows of INR6,884 crore and INR7,783 crore respectively during the financial year 2020-21. The increase in aggregate FPI investment limit in Indian companies from 24% to the sectoral cap has been a catalyst for the increase in weightage of Indian securities in major equity indices, thus mobilising massive equity inflows, both passive and active, into Indian capital markets.
