

The Nifty ended 0.08% up at 15,811.85. It opened on a flat note and got sold off, however, steady recovery from around 15,600 led to a positive closing. Chart pattern suggests 15,600 likely to act as the immediate critical support. Sharp correction is likely below 15,600 levels, however that looks unlikely at this juncture. Broader chart pattern suggests the benchmark index might get into consolidation in the price range of 15,600-15,900 before next leg of decisive up-move. Midway support is placed around 15,700.

On the Nifty hourly chart, direction of the leading indicators suggests continuation of range-bound oscillation. Probable range is likely to be 15,600-15,900.

Nifty patterns on multiple time frames suggest; it ended the day with a bullish body candle. However, being overbought on daily chart, continuation of range-bound oscillation is likely.

### **JK Tyre to spend INR200 crore to enhance production**

JK Tyre plans to spend INR200 crore in the next two years to enhance its production capacity through de-bottlenecking of its plants even as it continues de-leveraging exercise and reduced net debt by INR929 crore in FY21. The company is focusing on prudent capital allocation and tight management of its working capital to ensure accelerated de-leveraging going forward. Going forward, the company is planning to incur INR200 crore over the next two years by way of de-bottlenecking its plants to increase capacities, to be funded through internal accruals. There would be sufficient operational capacities through the proposed de-bottlenecking to cater to higher demand for its products, the company added. The company has 12 manufacturing facilities with annual production capacity of 5,75,000 metric tonnes (around 32 million tyres) in FY21.

### **Toyota Kirloskar to set up oxygen plant at Karnataka's Bidadi**

Toyota Kirloskar Motor announced it will set up an oxygen generating plant at the community health centre in Bidadi, near Bengaluru. The company is already in the process of upgrading and building a modern health centre at Bidadi where the automaker is located at a cost of INR12 crore. A new oxygen plant with the latest technology will have a bottling facility that will further enhance the oxygen supply and help the government in its fight against the Covid pandemic. The new oxygen plant will have a capacity to generate approximately 50 cylinders per day ensuring oxygen supply to CHC, Bidadi and further supplementing oxygen supply to government hospitals in Ramanagara district. The new plant is expected to be ready-for-use by end of November 2021.

### **GMR group arm, EGS to offer aviation, security courses in India, ME**
