

The Nifty ended 0.76% up at 18477.05. It opened on an extremely positive note and touched day's high of 18543. However, minor retracement in the end led to a closing off day's high and a spinning-top on daily. Chart pattern suggesting breaking out the resistance of 18550 in a single attempt might be difficult for the Benchmark Index. Hence, range-bound oscillation in the price band of 18350-18550 is a possibility. Higher resistance is placed around 18650 levels.

On the Nifty hourly chart, direction of the leading indicators suggesting the Benchmark Index is likely to oscillate with a positive bias in the price band of 18350-18550.

Nifty patterns on multiple periods suggest; finishing off the day with a Spinning-top candle might be an early indication of range bound oscillation. Immediate critical resistance is placed around 18550 levels.

## **UltraTech Cement**

UltraTech Cement reported a 7.6 per cent year-on-year rise in its net profit for the quarter ended September to Rs 1,300.1 crore. The company reported a 15.3 per cent year-on-year growth in revenue from operations for the reported quarter to Rs 11,548.4 crore. During the quarter, the company's profit before interest, tax, depreciation and amortization rose merely 1.6 per cent on-year as the company was unable to take as many price hikes as seen in the previous quarters. The reported quarter is considered to be seasonally weak for cement companies as most construction work around the country slows down due to monsoons. The biggest hit was taken by UltraTech's margin which slid 340 basis points on-year to 22.6 per cent as the company was battered by increase in costs and an inability to pass it on to consumers.

### **Sterlite Power bags Rs 324-cr transmission project**

Sterlite Power on Monday said it has bagged Nangalbibra -Bongaigaon inter-state power transmission project worth Rs 324 crore. Sterlite Power has a track record of executing complex projects successfully with the use of technology and innovative solutions. The company has completed the NER-II project, an inter-state transmission scheme spanning across the north-eastern states of Assam, Arunachal Pradesh and Tripura. It will also leverage its prior experience in implementing river-crossing solutions across the Ganges to address the challenge of long span river crossing across the Brahmaputra River. With this project win, Sterlite Power now has a portfolio of 26 projects across India and Brazil, which includes projects under various stages of development and those that have been sold. The company is focused on integrating renewable energy sources to the transmission grids.

The company had entered into an agreement with the buyer for sale of this land parcel in October 2015 and the transaction was to be completed by December 27, 2019. ### **Dr Reddy's Labs launches copy of BI drug; move may lead to legal battle**

Dr Reddy's Labs has launched copies of Jardiance, a hit anti-diabetes pill sold by German drug maker Boehringer Ingelheim (BI).
